

Advancing India's Rise as a Leading Power

DPG

ACTIVITIES 2016-20

DELHI POLICY GROUP

Founded in 1994, the Delhi Policy Group is among India's oldest independent think tanks with its primary focus on strategic issues of critical national interest. Over the past decades, it has established itself in both domestic and international circles, particularly in the areas of peace and conflict and national security.

In keeping with the growing dynamism of India's foreign and security policy, the DPG has expanded its focus areas to include India's broader regional and global role and the strategic partnerships that advance India's rise as a leading power. To support that goal, the DPG undertakes research and organizes conferences and interactions across a wide canvas including strategic and geo-political issues, geo-economic issues and defence and security issues.
